LED Downlight /Series/

La série LED Downlight fournit des solutions d'éclairage clés en main pour les applications domestiques et commerciales. Nos lampes sont une combinaison de technique et de design. Nous offrons à nos clients un ensemble pour expérimenter la bonne qualité et les effets d'éclairage avec un design unique, 100lm/w, UGR <19, Ra80 et Ra90, fonction intelligente. La famille de projecteurs à LED Downlight offre des solutions pour le projet et la distribution avec différents types de produits: version COB / SMD, IP54 / IP44 / IP20, encastré / en saillie / suspendu, de différentes tailles, de différents watts.

Optimlighting est un partenaire idéal pour trouver avec vous toutes les solutions d'éclairage qui sauront s'adapter à vos besoins et envies.

LED Track Light /Series/

L'éclairage LED sur rail existe depuis des décennies, mais il reste toujours aussi frais et contemporain en tant que plafonnier. Cela est dû principalement à son look purement moderne, avec ses rails droits et rigides et ses têtes directionnelles profilées. Mais la fonctionnalité est également un facteur lorsqu'il s'agit d'un système d'éclairage sur rail, chacune des têtes sélectionnées étant indépendante, facilement réglable et parfaitement focalisables. Des kits complets d'éclairage vous permettront également d'avoir instantanément un système d'éclairage élégant sur rail au plafond. LesLEDs Track Light Optimilighting peuvent être un choix parfait pour vous.

LED Panel Light /Series/

Le panneau lumineux à LED est l'un des luminaires les plus populaires pour l'éclairage commercial, avec une amélioration continue de son design, son efficacité lumineuse, son IRC, son UGR et sa fonction intelligente, Optimlighting est toujours capable de fournir aux clients une solution utile et le meilleur prix, c'est l'une des raisons pourquoi Optimlighting est le vendeur privilégié de lampes à LED sur le marché. La famille de panneaux à LED offre une solution différente pour le projet et la distribution, tels que le panneau à LED ordinaire avec un lumen élevé et un UGR faible, un panneau à LED changeant CCT, un panneau led étanche, un panneau led sans cadre, un panneau led émettant vers le haut / bas, un panneau led rond de grande taille avec montage encastré / en saillie / suspendu, les drivers approuvés par TUV-CE et les pilotes Lifud, Tridonic, Philips assurent toujours notre réputation de qualité.

LED Ceiling Light /Series/

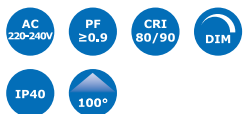

Plafonnier à LED sous toutes ses formes - la plupart du temps, il joue un rôle secondaire, mais apporte un vrai complément stylé à l'éclairage général d'une pièce. Des solutions d'éclairage innovantes à la conception complexe mettent en valeur votre pièce. Le plafonnier Optimlighting a un design discret, offrant des luminaires d'urgence, des capteurs et des projecteurs discrets, robustes et élégants. Élégamment mince et proposé à la fois comme luminaires de secours et de secteur. Cela permet d'utiliser le même profil transparent tout au long d'une installation. Toutes les options de la gamme sont idéales pour tous les projets nécessitant un luminaire de haute qualité. Offrant une grande flexibilité dans l'éclairage des lieux, mieux adapté aux zones résidentielles et commerciales

LED Tube Light/ LED Batten /Series/

La lumière LED à tube avec plus d'économie d'énergie et de luminosité élevée sont les premiers objectifs que nous poursuivons depuis le début. Nous travaillons pour des solutions généreuses, simples et pratiques. Puce de marque, CRI > 80/90, luminosité supérieure à 85LM / W, capot de l'ordinateur, support en aluminium, EMI, pilote EMC dépassé, transmittance de la lumière élevée sont la raison principale sur lesquelles nous gagnons notre réputation. À l'heure actuelle, la lumière linéaire Optimlighting est largement utilisée dans les magasins, les écoles, les hôtels, les entrepôts, les ateliers, etc.
